

Energy Symposium 2013

**Challenges in Energy Supply
&
CO₂ reduction**

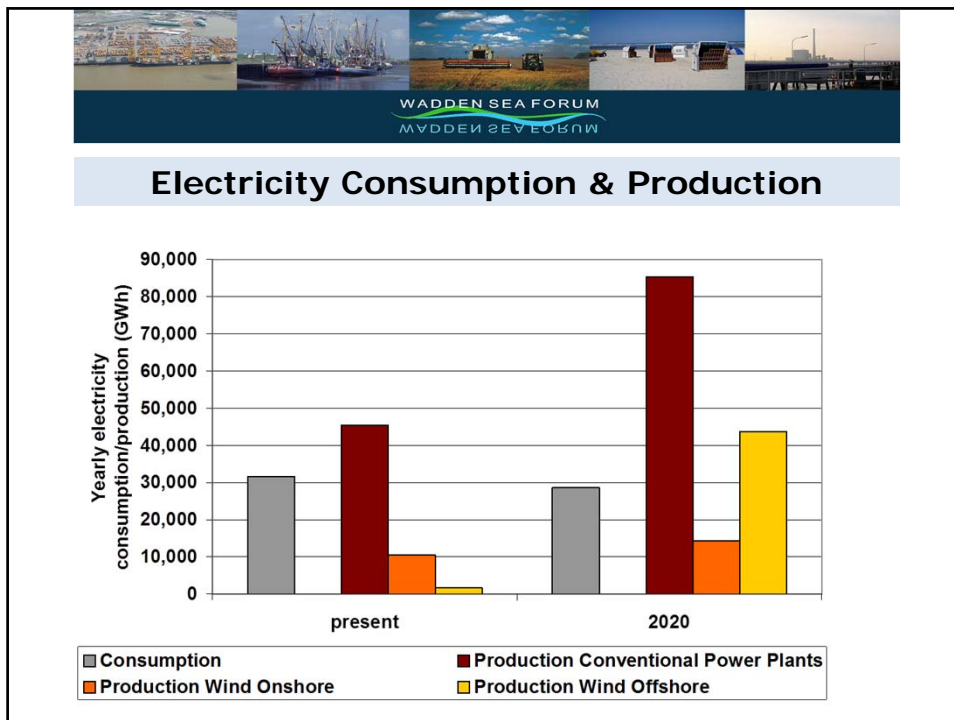

Energy in the WSR

Management Issues:

- Wind farms
- Fossil energy use
- Decentralized energy production
- CO₂ reduction
- Carbon, Capture & Storage
- Electric grid

- 
- ### Objectives of the Symposium
- Dialogue about energy supply
 - Definition of strengths and obstacles of energy transition
 - Measures of working towards a climate friendly Wadden Sea Region
 - Provision of best practise examples
 - Delivery of advice and recommendations for the political level, particularly for the Wadden Sea Conference in 2014

WADDEN SEA FORUM
WADDEN SEA FORUM

Sylt Declaration 2010

A photograph showing three women standing on a stage, shaking hands. They are positioned in front of a large screen displaying the Wadden Sea Forum logo. To the left and right of the women are flags of Germany and Denmark, respectively. The woman on the left is wearing a colorful patterned jacket, the woman in the middle is wearing a dark suit and a colorful scarf, and the woman on the right is wearing a dark blazer over a light-colored top.

WADDEN SEA FORUM
WADDEN SEA FORUM

WSF and a sustainable WSR

An aerial photograph of a small, circular island in the middle of a body of water. The island features a large, traditional-style building with a thatched roof and a smaller structure. The water around the island is turbulent, with white foam from waves crashing against the shore.
